

COVID-19 BRANDING TEMPLATES

Create awareness with our print-ready selection of COVID-19 Wellness Artwork

Whether you decide to share a unique message or prefer to choose from our print-ready selection of designs – this range was created to complement any COVID-19 Wellness Campaign. To use any of these designs, simply download our “COVID-19 Wellness Campaign Artwork” PDF and extract your logo of choice.

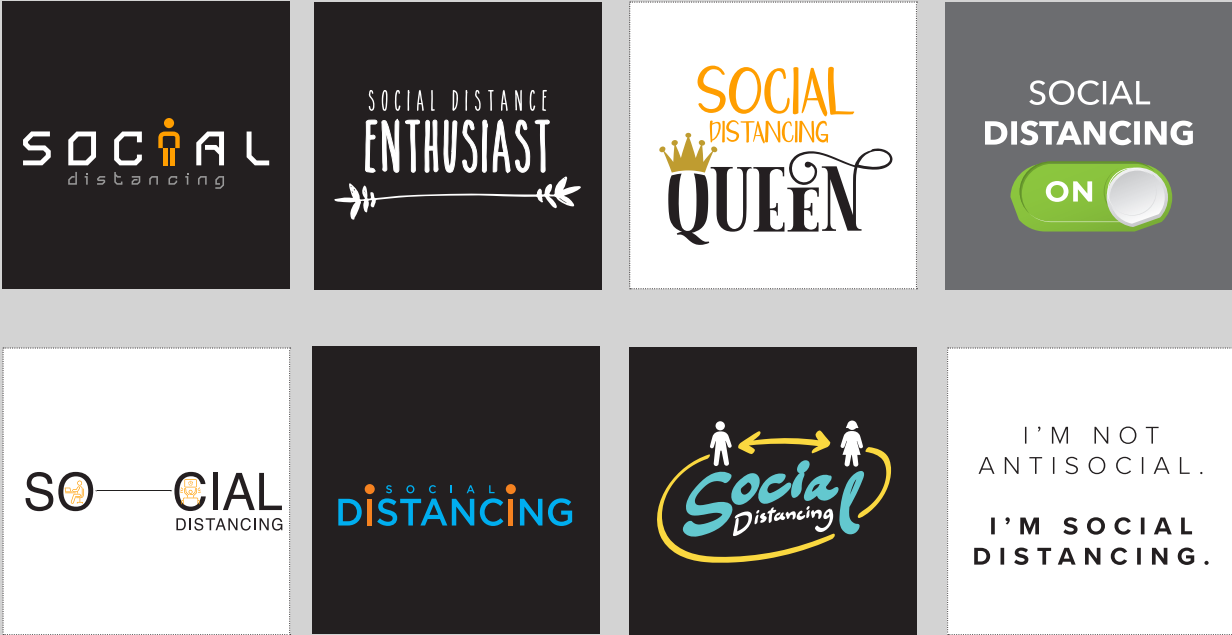

Where multiple branding options are available, price includes your choice of one option in one position. Where multiple components are indicated, each component includes branding of one option in one position. (Inclusive branding terms and conditions apply)

SOCIAL DISTANCING

Protect the wellbeing of your employees and customers by creating awareness and promoting social distancing in the workplace. COVID-19 can spread through small respiratory droplets produced by the nose or mouth, when speaking, coughing or exhaling. You are at risk of contracting COVID-19 if you inhale these droplets. This is why it is extremely important to keep a safe distance of 2 metres from other people.

HYGIENE

Your greatest defence against infectious diseases like COVID-19, is practising good hygiene by regularly washing your hands with soap and water or using an alcohol-based hand sanitiser frequently.

STAY HOME

Staying home and staying safe is essential in limiting the spread of COVID-19. Adapting to dramatic change like working from home, avoiding large gatherings and distancing oneself from family, friends and colleagues can be highly disruptive to team morale and performance and we understand that making a 'comeback' in the current economic environment is easier said than done. Whether your team is working from home or performing essential services, keep them motivated and focussed on the task at hand by reminding them that they are an important part of the team.

MASKS

Keep yourself and those around you safe by creating awareness and promoting the importance of wearing a mask. Masks can be extremely useful in limiting the spread and risk of contracting COVID-19. Here are some useful tips:

- Wear a mask when going out in public.
- Masks are effective only when used in combination with good hand hygiene: frequent hand washing with soap and alcohol-based sanitisers.
- Disposable masks are intended for single-use only and should not be worn for more than a day. If you wear a single-use mask, dispose of it immediately and wash or sanitise your hands.
